INDEX TO VOLUME XVIII

The asterisk * preceding the page number indicates an original article in this Journal. The letter T preceding the page number indicates a paper reported in the Transactions of the American Association of Neuropathologists. The letter D preceding the page number indicates a discussion of an original article or some other item published in this Journal. Subject entries are made for all articles. Author entries are made for original articles and Society Transactions.

Abdullah, A. and E. Eldred, activity in gamma efferent circuits induced by distension of the bladder,*590
Adenoma, chromophobe in a dog, *559
Adrenal gland, intracranial, T330
Allergic encephalitis, lipolytic activity of lymphnodes in experimental, *324
Allergic encephalomyelitis, clinico-pathologic correlations, *442, *447
— —, in rats and rabbits pretreated with nervous tissue, *397
Alpers, B. J., D348
Alvord, E. C., Jr., D329
Alvord, E. C., K. R. Magee, M. W. Kies, and N. P. Goldstein, clinico-pathologic correlations in experimental allergic encephalomyelitis. I. Observations on the early lesion, *442
— — and M. W. Kies, II. development of an index for quantitative assay of encephalitogenic activity of "antigens," *447
American association of neuropathologists, annual meeting, Atlantic City, N. J., T328
Angiomatosis, with naevus flammeus and encephalosis calcificans, *75
Angitis, granulomatous, of the central nervous system, T339
Antenatal and paranatal circulatory disorders as a cause of cerebral damage in early life, *115
Anticoagulant therapy, delayed, effect on experimental cerebral infarcts, *263
Antigens, encephalitogenic activity of, development of an index for quantitative assay, *447
Aqueduct of Sylvius, atresia and stenosis of, *3
Arnold-Chiari complex, *3
Aronson, B. E., see Krainer, L., T339
Aronson, S. M., see Okazaki, H., T328
Arrhinencephalies (holotelencephalies), *22
Arrhinencephaly in an infant born to a diabetic mother, *620
Arterial border zone of the brain, the pathology of, T348
Atresia and stenosis of the aqueduct of Sylvius, *3
Autoradiograms, reference to cerebral distribution and migration of radioisotopes, *418

Bailey, O. T. and J. S. Woodard, small vascular malformations of the brain: their relationship to unexpected death, hydrocephalus and mental deficiency, *98
Baker, B. A. and D. Denny-Brown, a study of denervated muscle in normal and dystrophic mice, *517
Beck, E., see Gastaut, H., *270
Berger Wechsler, M., see L. Roizin,*636
Benda, C. E., dysraphic states, *56, D334
—, and J. C. Melchior, neuropathological observations on a case of so-called "Heller's disease" T333,
Berg, O. and B. Källen, studies on rat neuroglia in tissue culture, *458
Berman, H. H., see Roizin, L., *75
Bernstein, J., see Wohlwill, F. J., *359
Berry, R. G., D337
—, and W. J. Borkowski, an unusual subacute "granulomatous" encephalitis, T336
Bladder, distentions, gamma afferent circuits produced by, *590
Blanc, W. A. and L. Johnson, studies on kernicterus; relationship with sulfonamide intoxication; preliminary report on kernicterus in rats with glucuronyl-transferase deficiency and review of pathogenesis, *165
Bonafide, V. I., see Roizin, L., *75
Bone, parietal, foramina, fenestrae and thinness of, *432
Book reviews, B354, B487, B648
Borkowski, W. J., see Berry, R. G., T336

Cammermeyer, J., D329, D330, D332, D334, D337, D350, D352
Carbon monoxide poisoning, leucoencephalopathy following, *597
Cavanagh, J. B., see Gastaut, H., *270
Cerebellar cortex, granular layer, selective necrosis of, *609
— neurons, changes in fine structure following ionizing radiation,*580
Cerebral damage in early life, antenatal and paranatal circulatory disorders, as a cause of, *115
Chromophobe adenoma in a dog, *559
Circuits, gamma efferent, activity in induced by distension of the bladder,*

Circulatory disorders, a cause of cerebral damage, *115
Clarkson, T. B., M. G. Netsky, and E. de la Torre, chromophobe adenoma in a dog: angiographic and anatomic study, *559
Clinico-pathologic correlations in experimental allergic encephalomyelitis. I. Observations on the early lesion, *442
— —, II. development of an index for quantitative assay of encephalitogenic activity of "antigens", *447
Cobb, J. P. and J. C. Wright, studies on a craniopharyngioma in tissue culture. I. growth characteristics and alterations produced following exposure to two radiomimetic agents, *563
Complex, Arnold-Chiari, *3
Congenital vascular anomalies and their histopathology in Sturge-Weber-Dimitri syndrome, *75
Corsi, A. and C. Gentili, an in vitro study of muscle in myotonia, *482
Courville, C. B., antenatal and paranatal circulatory disorders as a cause of cerebral damage in early life, *115
Cowen, D., see Wolf, A., *191, *627
—, see Potanos, J. N.,
Craniopharyngioma, studies in tissue culture, on a, *563
Cravioto, H. and I. Feigin, granulomatous angitis of the central nervous system, T339
Cumings, J. N. see Dyck, P. J., T344
Cyanide encephalopathy, experimental, T345
Cytochemical localization of oxidative enzymes in human nerve cells and neuroglia, *627

Dallgaard, S. A., see Wiener, M. F., T330, D332
Dekaban, A., arrhinencephaly in an infant born to a diabetic mother, *620, D330, D333
Dementia, progressive, diffuse intracytoplasmic ganglionic inclusions, associated with T328
Demyelinating disease, primary ?, T345
Demyelinating diseases with special emphasis on the metachromatic type (postnatal and early infantile), *156
Denervated muscle, a study of in normal and dystrophic mice,*517
Denny-Brown, D., see Baker, B. A., *517, D343
Dermatomyositis, histologic changes in, following hydrocortone and testosterone therapy, T343
Diabetic mother, arhinencephaly in an infant born to a, *620
Disseminated encephalomyelitis in the human with recovery of hepatoencephalitis virus, T339
Dyck, P. J., J. N. Cumings and J. Olszewski, a case of leucodystrophy in an adult: a pathological and chemical study, T344
Dysraphic states, *56
Dystrophic mice, a study of denervated muscle in normal and, *517

Eldred, E., see Abdullah, A., *590
Embolism, experimental cerebral. II. microembolism of the rabbit brain with seran polymer resin, *537
Embryo, mammalian, pre-implantation, exencephalia following x-irradiation of, *468
Encephalitis, an unusual subacute "granulomatous", T336
— periaxialis diffusa of Schilder?, T345
—, spontaneous primary, study in the monkey, *294, *306, *313
— with a cortico-striate predilection in the baboon, *306
Encephalomyelitis, allergic, experimental, clinico-pathologic correlations, *442, *447
—, allergic, in rats and rabbits, pretreated with nervous tissue, *397
—, experimental allergic, produced with brain fractions containing mitochondria, *636
Encephalopathy, cyanide, experimental, T345
Encephalosis calcificans, *75
English, W. H., see Roizin, L., T349
Epilepsy, experimental psychomotor in the cat, *270
Eros, G., see Roizin, L., T349
Exencephalia following x-irradiation of the pre-implantation mammalian embryo, *468

Feigin, I., demyelinating diseases with special emphasis on the metachromatic type (postnatal and early infantile), *156
—, see Cravioto, R., T339
Ferraro, A., D340, D345
Foley, J. M., D328, D349
—, and E. A. Martin, some histological features of brain hemorrhage with prolonged survival, T348
Foramina, fenestrae and thinness of parietal bone, *432
Fuente, J. de la, see Steegmann, A. T., *531, D537

Gajdusek, D. C., see Klatzo, I., T335, D336
Gamma efferent circuits, activity in, induced by distention of the bladder, *590
Gastaut, H., R. Naquet, A. Meyer, J. B. Cavanagh and E. Beck, experimental psychomotor epilepsy in the cat. electro-clinical and anatomo-pathological correlations, *270
Gentili, C., see Corsi, A., *482
Giok, S. P. and H. C. M. v.d. Schoot, metastasizing primary cerebral tumor, *575
Glioblastoma multiforme, the basic histopathologic elements, T351
—, subdivision of on a cytologic and cytochemical basis, T352, *244

Glucuronyl-transferase deficiency in rats with kernicterus, *165
Gold, G., see Roizin, L., *75, T349
Goldstein, N. P., see Alvord, E. C., *442
Grupp, E., see Rugh, R., *468

Haymaker, W., see Nelson, E., *489
Heller's disease, neuropathological observations in a case of, T333
Hemorrhage of brain with prolonged survival, some histological features of, T348
Hydrocephalus, unexpected death and mental deficiency, their relationship to small vascular malformtions of the brain, *98
Hydrocortone and testosterone therapy, histologic changes in dermatomyositis following, T343
Hypothalamus, neurosecretory substances, in the T328

Infarcts, cerebral, effect of delayed anticoagulant therapy on, *263
Infections of the central nervous system, perinatal, *191
Inclusions, (Lewy type), diffuse intracytoplasmic ganglionic, associated with progressive dementia, T328

Johnson, L., see Blanc, W. A., *165

Källen, B., see Berg, O., *458
Kernicterus, studies on, *165
Kies, M. W., see Alvord, E. C., *442, *447
Kim, S. K. and A. E. Walker, the pathology of cerebral paragonimiasis, T335
Klatzo, I., D. C. Gajdusek and V. Zigas, pathology of Kuru disease, T335
Koenig, H., D335, D336, D338, D346, D352
Korey, S. R., D346
Krainer, L. and B. E. Aronson, disseminated encephalomyelitis in the human with recovery of hepatoencephalitis virus (HEV); pathologic and virologic report, T339, D342
Kuru disease, pathology, of T335

Lapham, L. W., subdivision of glioblastoma multiforme on a cytologic and cytochemical basis, *244, T352,
Leucodystrophy, a case in an adult, T344
Leucoencephalopathy following carbon monoxide poisoning, *597
Leukodystrophy, dysmyelinogenic, new, presumably familial type with megalobarencephaly, *359
Levine, S., experimental cyanide encephalopathy, T345
Lichtenstein, B. W., introductory remarks, *1
—, atresia and stenosis of the aqueduct of Sylvius with comments on the Arnold-Chiari complex, *3
— and P. R. Rosenbluth, Schilder's disease with melanoderma, *384
Lindenberg, R., the pathology of the arterial border zone of the brain, T348, D349
Lindstrom, P. A., see Nelson, E., *489
Lipkin, L. E., see Okazaki, H., T328
Liss, L., morphology of the neurosecretory substances in human hypothalamus, T328
Liss, H., see Mettler, F. A., *509
Lissauer's paresis, T337
Liver and central nervous system, histopathologic findings in, following administration of tranquilizing drugs in human, T349
Lobotomy procedure, ultrasound irradiation used as, *489
Lymph nodes, lipolytic activity of, in experimental allergic encephalitis, *324

Magee, K. R., see Alvord, E. C., *442
Malamud, N., sequelae of perinatal trauma, *141, D334
Malformations, cerebral, pathoarchitectonic studies of, *22
Margulies, M. E., histologic changes in dermatomyositis following hydrocortone and testosterone therapy, T343, D330, D333, D352
Martin, E. A., see Foley, J. M., T348, D348
Megalobarencephaly with dysmyelinogenic leukodystrophy, *359
Melanoderma with Schilder's disease, *384
Melchior, J. C., see Benda, C. E., T333
Meningitides and meningo-encephalitides, diffuse, non-suppurative with subacute and chronic course in the monkey, *313
Mental deficiency, hydrocephalus and unexpected death, their relationship to small vascular malformations of the brain, *98
Mettler, F. A. and H. Liss, functional recovery in primates after large subtotal spinal cord lesions, *509
Meyer, A., see Gastaut, H., *270
Microembolism of the rabbit brain, *537
Millikan, C. H., see Peterman, A. F., *263
Moebius syndrome, contribution to the pathology of, T329
Moore, M. T., D331
Muscle, denervated, a study of, in normal and dystrophic mice, *517
— in myotonia, an in vitro study of, *482
Myotonia, an in vitro study of muscle, in, *482

Naevus flammeus with angiomatosis and encephalosis calcificans, *75
Naquet, R., see Gastaut, H., *270
Nashold, B. S. and M. G. Netsky, foramina, fenestrae and thinness of parietal bone, *432
Necrosis, acute, selective of cerebellar cortex, granular layer, *609
Nelson, E., P. A. Lindstrom, and W. Hay-

maker, pathologic effect of ultrasound on the human brain. a study of 25 cases in which ultrasound irradiation was used as a lobotomy procedure, *489
Netsky, M. G., see Clarkson, T. B., *559
—, see Nashold, B. S., *432
Neumann, M. A., a review of Lissauer's paresis, T337, D338
Neuroglia, cytochemical localization of oxidative enzymes in human nerve cells and, *627
— of rat, studies in tissue culture, *458
Neuropathology in western Europe, part II, *645
Neurosecretory substances in the hypothalamus, T328

Okazaki, H., D329
—, L. E. Lipkin and S. M. Aronson, diffuse intracytoplasmic ganglionic inclusions (Lewy type) associated with progressive dementia, T328
Oligodendroglioma in a six-week old infant, *569
Olsen, Steen, acute selective necrosis of the granular layer of the cerebellar cortex, *609
Olszewski, J., D338
—, see Dyck, P. J., T344
—, see Vulpe, M., *324

Paragonimiasis, cerebral, pathology of, T334
Pathoarchitectonic studies of cerebral malformations, *22
Parietal bone, foramina, fenestrae and thinness of, *432
Perinatal infections of the central nervous system, *191
—, trauma, sequelae of, *141
Peterman, A. F., K. G. Wakim, G. P. Sayre, J. P. Whisnant, and C. H. Millikan, effects of delayed anticoagulant therapy on experimental cerebral infarcts, *263
Peters, D351
Polio-encephalitis with predilection for the brain stem in the baboon, *294
Potanos, J. N., A. Wolf, and D. Cowen, cytochemical localization of oxidative enzymes in human nerve cells and neuroglia, *627
Primates, large subtotal spinal cord lesions, functional recovery after, *509
Psychomotor epilepsy, experimental, in the cat, *270

Rabiner, A. M., D348
Radiation, ionizing, changes in fine structure of cerebellar neurons, following, *563
Radioisotopes, cerebral distribution and migration of, *418
Radiomimetic agents, growth characteristics and alterations produced following exposure to two, *563
Richardson, E. P., Jr., D346
Riggs, H. E., contribution to the pathology of Moebius syndrome, T329, D330
Roizin, L., D344, D351
—, and M. Berger Wechsler, experimental allergic encephalomyelitis produced with brain fractions containing mitochondria, *636
—, G. Eros, G. Gold, F. Weinberg, T. Wodraska, and W. H. English, histopathologic findings in the liver and central nervous system following the administration of some tranquilizing drugs in human, T349
—, G. Gold, H. H. Berman, and V. I. Bonafide, congenital vascular anomalies and their histopathology in Sturge-Weber-Dimitri syndrome. (naevus flammeus with angiomatosis and encephalosis calcificans), *75
Rosenbluth, P. R., see Lichtenstein, B. W., *384
Rugh, R. and E. Grupp, exencephalia following x-irradiation of the pre-implantation mammalian embyro, *468

Sayre, G. P., see Peterman, A. F., *263
Scharenberg, K., introductory remarks, *114
—, the basic histopathologic elements of glioblastoma multiforme, T351, D336, D343, D352
Schilder's disease with melanoderma, *384
Schoot, van der, H. C. M., see Giok, S. P., *575
Schwedenberg, T. H., leucoencephalopathy following carbon monoxide poisoning, *597
Sclerosis, typical?, T345
Seran polymer resin, microembolism of the rabbit brain with, *537
Sherman, F. E., see Zeman, W., T345
Spinal cord lesions, functional recovery in primates, after large subtotal, *509
Steegmann, A. T. and J. de la Fuente, experimental cerebral embolism. I. An improved method for staining the vascular architecture of the rabbit brain, *531
—, —, experimental cerebral embolism. II. Microembolism of the rabbit brain with seran polymer resin, *537
Sturge-Weber-Dimitri syndrome, *75
Sulfonamide intoxication, relationship with kernicterus, *165
Svoboda, D. J., oligodendroglioma in a six-week old infant, *569

Testosterone and hydrocortone therapy, histologic changes in dermatomyositis, following, T343
Tissue culture, studies on a craniopharyngioma, exposed to two radiomimetic agents, in, *563

— —, studies on rat neuroglia, in, *458
Tranquilizing drugs, administration in human, histopathologic findings in the liver and central nervous system, following administration of, T349
Trauma, perinatal, sequelae of, *141
Torre, E. de la, see Clarkson, T. B., *559
Tumor, primary cerebral, metastasizing, *575

Ultrasound, pathologic effect on the human brain, *489
—, irradiation used as a lobotomy procedure, *489

Van Bogaert, L., studies on spontaneous primary encephalitides in the monkey. I. polio-encephalitis with predilection for the brain stem in the baboon (Papio Hamadryas), *294
—, II. encephalitis with a corticostriate predilection in the baboon, *306
—, III. diffuse non-suppurative meningitides and meningo-encephalitides with subacute and chronic course, *313
Vascular anomalies, congenital, *75
— malformations, small, of the brain, *98
Virus, hepatoencephalitis, recovery in disseminated encephalomyelitis in the human, of, T339
Vogel, F. S., changes in the fine structure of cerebellar neurons following ionizing radiation, *580
Vulpe, M. and J. Olszewski, lipolytic activity of lymph nodes in experimental allergic encephalomyelitis, *324

Wakim, K. G., see Peterman, A. F., *263
Waksman, B. H., allergic encephalomyelitis in rats and rabbits pretreated with nervous tissue, *397
Walker, E. A., see Kim, S. K., T334, D335
Weinberg, F., see Roizin, L., T349
Whisnant, J. P., see Peterman, A. F., *263
Wiener, M. F. and S. A. Dallgaard, intracranial adrenal gland, T330, D328, D330, D332, D337
Wodraska, K., see Roizin, L., T349
Wohlwill, F. J., J. Bernstein, and P. I. Yakovlev, dysmyelinogenic leukodystrophy. report of a case of a new familial type of leukodystrophy with megalobarencephaly, *349
Wolf, A. and D. Cowen, perinatal infections of the central nervous system, *191
—, see Potanos, J. N., *627
Woodard, J. S., see Bailey, O. T., *98
Wright, J. C., see Cobb, J. P., *563

X-irradiation of pre-implantation mammalian embryo, *468

Yakovlev, P. I., pathoarchitectonic studies of cerebral malformations. III. arrhinencephalies (holotelencephalies), *22
—, see Wohlwill, F. J., *359
Yamamoto, T., the cerebral distribution and migration of radioisotopes with special reference to autoradiograms, *418

Zeman, W. and F. E. Sherman, primary demyelinating disease—a typical encephalitis periaxialis diffusa of Schilder, a typical multiple sclerosis or unknown disease?, T345
Zigas, V., see Klatzo, I., T335
